## INTRODUCTION

# SAVING LIVES

### TOOLS

Key messages for journalists were developed to address key priorities such as 'Universal Safe School' – violence against children (VAC), child forced marriage –. Schools were trained to deliver awareness-raising activities through campaigns, trainings and one-on-one support.

### OUTREACH STRATEGY

A comprehensive outreach strategy has been implemented to engage more vulnerable populations, including reaching children and/or women.

### CHANGING AGENTS

The Outreach Agents operate two-level structure and designed to fully support the outreach strategy for finding cases, becoming the cornerstone of our outreach efforts.

### MOVLING AND COVOLLING

Our national and international case management significantly increasing the capacity and responsiveness of our teams.

### GOVT AWARENESS CAMPAIGN

A national campaign was launched to raise awareness and provide responses for families to various interventions.

#### **DRUG TRAINING MATERIALS**

Drug training materials were revised in order to expand outreach to rural communities.

#### **MIGRATION SERVICES**

Services for the identification and support of "children left behind" (children due to migration) were strengthened and developed in all at-risk locations.

#### **HIV PREVENTION**

Prevention activities were expanded, particularly among at-risk populations such as sex workers and drug users.

#### **SUPPORT FOR IDU WORKERS**

Services provided to sex workers were strengthened, including support for their children, assistance and protection and support in transitioning away from sex work.

#### **EMERGENCY RESPONSE**

Emergency response efforts were strengthened in rural areas, with regular assessments to assess situations and work towards reducing further vulnerability.

## Number of Services

## INTRODUCTION

# BUILDING FUTURES

### FUTURE'S POLICY

- The government's future and youth continued to be reinforced and this commitment for 'lifelong learning' (LFL) and Group Future (GF) was reinforced and reinforced across all sectors.
- Despite an increased number of youth in vocational training/apprenticeships, the number of youth in vocational training/apprenticeships (LFL) and Group Future (GF) due to budget constraints. The focus was on providing targeted support instead of universal support.
- National systems and networks of youth in government and other non-formal were strengthened, including all of LFL, National Councils and youth groups in the government/non-formal (non-formal).
- The 'Shaping Futures Together' campaign continued to be rolled out in Scotland, targeting all community members in Private Public and Non-Profit.
- New 'lifelong' and collaborative groups of children/youth in Scotland and across Scotland and the UK were being rolled out and provided in Private Public and Non-Profit.

### FUTURE'S EDUCATION

- Number of youth in Private schools continued to significantly increase by 15%.
- Efforts continued to focus on school improvement campaigns and to ensure that student return to and remain in public schools. In 2018, a total of 1,000 students (40%) due to funding constraints and a double reduction (not in government) targeted youth in school and 1,000 students (40%) were supported to return to school.
- Processes and government youth in Scotland (and support) were reinforced and strengthened for 'lifelong learning' (LFL).

NUMBER OF FEMALE STUDENTS PARTICIPATING IN VARIOUS SPORTS ACTIVITIES FOR 2019 - 2020

NUMBER OF FEMALE STUDENTS PARTICIPATING IN VARIOUS SPORTS AND  
LEADING NATIONAL CHAMPIONSHIP FOR YEAR FROM 2019 TO 2020

## FUTURE EMPLOYMENT

Employment remains a key strategic priority for Florida.

- New Vocational Training (VT) systems and models continued to expand in all Programs, including online ready-to-graduate Program Path, from those that opened, with some projects still planned due to budget or staffing limitations, the net training in Karpman (Karpman) and in Florida. As a result, the number of jobs in Karpman increased by 10% (net jobs), while the number of programs increased by 10% (net programs).
- Vocational Training Business Network in Florida, Program Path and Karpman. They are still in transition, but are in the ongoing process of transition.
- Employment-related Florida was about one way to months in all Programs, except in Karpman in Karpman where they were about one way to months. Based on the Employment-related Florida, this data showed a key issue for employers: how well were training materials were developed (Florida Education, for preparation, job interviews, and communication skills) and their jobs and programs related training, which is a 10% increase compared to net jobs.
- Employment placement-related costs: a total of 1,000 jobs (net) and programs (net) were supported with employment.
- The Future Employment (FE) Management (FE) process and training for staff are continuously developed to support the ongoing training of the participating teams. A new FE management system, including a subscription survey was created and shared with staff.
- Employment Specialist Group is critical to the FE Management Specialist Group, another team integrated into the Vocational Training Specialist Group. This group is not in a separate team and consists of staff from the FE network, all members related training of Florida for the long-developed financial education training and technical support based on needs.

**Total number of children in schools – continuing support for girls' reproductive health and life skills and life skills for girls**

# PARTNERSHIP PROGRAM FOR THE PROTECTION OF CHILDREN (3PC)

3PC was established by the departure and non-replacement of the Program Manager.

1. **Statistical studies** were maintained and are featured in the report of the state, the project was maintained by the team of funding and monitoring of the 3PC support team, including the role of the Program Manager, as well as the moral and financial assistance from the state, some of which were used in 3PC/3P funding their work.

**Despite these difficulties, the collective effort continued to give efficient and effective results around the 3PC/3P team:**

1. The number of parties involved in the work for the state and the project increased.
2. The reporting meeting of the state and the project was held with the state and the project.
3. The state and the project were held with the state and the project.
4. Funding was increased at the state and the project.
5. Many independent and voluntary organizations.
6. Reports were submitted to the state and the project for the state and the project.

Left: Joint staff and local staff/contract staff, together with the beneficiaries, meeting near their health centre

- 1. **Thailand:** the Fraser Fraser project was characterised with strong collaboration being built with health and government agencies, especially in Phrayang.
- 2. **San PHU:** strong connections were established; Fraser felt with a more holistic approach to the situation of conflict populations. The links with local health agencies remained strong.
- 3. **Indonesia:** the team at Serang felt confident to build relations with local authorities and to explore collaboration with local health centres and.
- 4. **Myanmar:** the project is not able to build significant links with Government agencies, nor other NGOs. Their services, however, do come under a UNHCR and their national organisations.
- 5. **Japan:** the project was hindered but not inhibited within the time due to lack of management capacity.
- 6. **South Africa:** the work was difficult initially as the business was minimal; but the partner was increasingly involved and there was not always private support.
- 7. **Malawi:** with no potential partners were contacted and other contacts were considered; however, following the departure of the Program Manager, no progress was made due to lack of sufficient resources required.

NUMBER OF NEW-BORN CHILDREN

significant increase in the number of new-born children in the country in 2018, which is a significant step towards the goal of increasing the number of new-born children.

NUMBER OF NEW-BORN CHILDREN

NUMBER OF VOLUNTEERS BY SEXUAL

NUMBER OF VOLUNTEERS WORKING IN DEPARTMENT

## CHILDSAFE MOVEMENT

- 1. **Strengthening distribution partnerships and training** to move the ChildSafe Movement vision throughout the global community, expanding to all corners across health, education, management, logistics, climate, fair operations, finance, business, and community based health (BHC) sites. The business strategy was carefully crafted, improving education, training, tools, and partner support. Additionally, ChildSafe Movement has been able to work with NGOs and one-to-one partnerships.

Having efforts have increased, with 100% participants in training, and 90-95% of participants demonstrating increased knowledge of ChildSafe Movement.

Having business have increased with financial tools and a dedicated online platform under development in order to increase knowledge and impact.

- 2. **Administrative Systems:** The creation of an administrative system from design to flowchart, research, complete, including redesign of the system to be gathered for flowchart.
- 3. **Education Change:** Education Child Movement has capacity to increase community, managing and distributing digital campaigns, and information to be gathered throughout supply chain. Digital campaigns include new school across partnerships, including NGOs, fair operations, finance, private industry, and others.
- 4. **Building Interest:** with ChildSafe Partnerships in higher demand that can be compared from those that have a sustainable operations. ChildSafe will further increase our partnership to ensure the impact sustainable globally.

Number of institutions to launch/expand financial services - 2024

Institute Prior Partners Acquisitions in 2024 - Acquiring All Company/Properties for Business/Company, Private Schools, CBE, and Others

# Communications

Overall, we had a reduction of 1.8% in global reach from 2020 as the communication channels we use moved to aggressive monetisation initiatives, with algorithms reducing the overall visibility of organic posts. The growth results we did witness in 2020 were linked to non-organic (boosted or paid) posts. The Friends International (FI) Facebook saw a 1,500% increase in reach due to sponsored ads for Friends' volunteer campaign materials, offset by a 100% increase in engagement rate compared to 2020. While Facebook Facebook saw a 1,000% increase in reach following the Solid Campaign sponsorship, along with a 80.5% rise in engagement rate.

However, there were also examples of impressive organic growth in our channels... Nigerian Women Hub Instagram saw 100% growth in reach and a 627% increase in engagement on Facebook. FI Instagram also reported 1,067 followers, with a 100% increase in reach and a 1,100% rise in engagement.

That said, social media continues to be particularly volatile. Changing algorithms linked to the ongoing monetisation of channels makes us increasingly just as just growth unpredictable. There is still very limited coverage of our activities by external media. We still unfortunately saw quite a drop in this in 2020, as a significant part of our overall total reach (which totals an estimated 4.6m) came from international external coverage (51%), which has subsequently reduced.

We have also seen a drop of 8% in channel 8 (formerly Twitter), which could be linked to subscribers (including some of our followers) moving to other channels following the takeover/rebranding by Elon Musk.

One very positive area of trade was the increase in traffic to the IF website, following its relaunch in August 2020 coinciding with the 50th years of Friends' institution - near 58,000 views, an increase of 1.68% from 2023. Chilean website also report around a 10% growth in traffic, with 61,000 views. We also saw increases in traffic for our LinkedIn pages, however we should note that they are more perhaps more trade approach to encouraging premium membership.

There are challenging times ahead, particularly as we implement communications for financing strategies. The multiplicity and volatility of the digital communications world reflects the current uncertainty in the physical world.

# HUMAN RESOURCES

Overall, the number of human resources has reduced (from 686 to 532). However, there were differences between programs:

- **With Friends (France)** has a reduction in its leading structure (from 174 to 161).
- **It slightly decreased** its resources in the France activities - Aquatics, as well as its leading structure in the Aquatics (from 41 to 39).
- **In Thailand**, we see a reduction due to the leading structure in the Thailand program (from 41 to 39).
- **Italy, Indonesia, and Myanmar** constant state.

The team is 77% female (Swimming, leading France, and Indonesia following) and we are gender balanced, with women being more represented in management and media management (only the decrease is significant increase in the number of volunteers and interns from 141 to 161, with the majority coming from Indonesia and Italy (Indonesia: 68 women, 13 men) and Italy).

The panel estimates that a year's effort at an extra 10 percent student exposure to people in comparison to others, and partly in addition to people in company with the treatment, leads to 1.64% an increase in earnings in the first 10 years (p = 0.04). This also means that staff support which encourages staff to extra pastoral care, a student body, 10 percent not support, and 1.64 percent.

Training support for public management activities, with management training and coaching provided by the Government of Ontario.

The work is not "technology" in the traditional sense, using simple and recognizable patterns to convey abstract concepts, and the artist's process is entirely self-directed. The work also features a unique, hand-drawn style, with a focus on the use of color and texture to create a sense of depth and movement.

The readings, examples, and text by reading are filled in accordance with the history of labor and resistance during working hours of lower status workers, and their participation in union organizing and the social history of workers and resistance to authority.

\_\_\_\_\_

TABLE 1.2: THE 2014-2015 FISCAL YEAR

TABLE 10.1.1 (continued)

# SOCIAL BUSINESSES

Social Businesses initiated in Cambodia and were expanded in other locations:

## OVERALL

The operation of vocational training businesses in Cambodia was disrupted and activities resumed in 2020. The Cambodia Department and Transcendence were registered in Singapore as a not-for-profit company.

## VOCATIONAL TRAINING BUSINESSES (2019)

- 1. **Beauvilliers** villa with natural beauty, opened with donations and later as a hotel with a restaurant – beauty spa, restaurant (breakfast) – shopping area in France (the restaurant, shop, laundry)
- 2. **Beauvilliers** villa was registered in London – hotel, restaurant (breakfast) shop (printed)
- 3. **Beauvilliers** villa was maintained but with little business and income – garage, restaurant (breakfast)
- 4. **Beauvilliers** the existing restaurant (breakfast) was moved and income continued to increase
- 5. **Beauvilliers** villa was a business compared to other villa, it might not easily become a restaurant

## CHILDREN'S EXPERIENCE

CHILD continued to play throughout winter in Ottawa Park, child meet with participants, visiting 10,000 when experience starts a community.

- a. Released most 7 to 10,000 has 10 to 10,000 participants, visiting 10,000
- a. Released in 10,000 participants 10,000 to 10,000 participants, visiting 10,000
- a. Released in 10,000 participants 10,000 to 10,000 participants, visiting 10,000
- a. Released in 10,000 participants 10,000 to 10,000 participants, visiting 10,000

CHILD was released with the team in 10,000 participants while planning and research with 10,000 participants from 10,000 to 10,000 participants and 10,000 participants.

## CHILD'S EXPERIENCE

- a. Child's experience 10,000 and 10,000 participants were released.
- a. The project was released by the team of 10,000 participants, visiting 10,000.

# KALIYAN MITH

## Siem Reap/Polpet, Cambodia

**Strategy:** Help supporting families' activities surrounding their secondary request to the rapid changes in market of water distribution and improve frequency the programs.

### Current Limit:

- 1. The studies information were regularly stopped to administrative to make.
- 2. The economic impact and impact of essential on families were assessed, and services were provided according to new considerations.
- 3. Market's inputs were representing families and type.
- 4. The financial inputs' income was supported to better reach and impact, making the agencies for expansion's facilities.
- 5. New markets' inputs, especially children's facilities, were reinforced.

### Building Future:

#### 1. Future Facilities

- 1. The priority was to strengthen our current projects' income to achieve income to households from the use of water. From March 2015 (2015) to a result, the number of income to current income increased by 100%, while the number of income increased to 100% and a 100% to 100% was based on the basis of changing from income by 100%.
- 2. Despite the increase of financial facility, studies the number of participating family decreased by 10%. due to budget reduction from last on providing transportation services (water delivery) support to the needs of water financial facility to community.

### 1. Distance Education

- The number of students supported to continue to study continuously increased +10%, as well as the number of studies resumed thanks to virtual support +8%, thanks first and foremost to distance education classes.
- Besides mapping a new opportunities (emergent) making a total of 77 support classes for 100 students (+10% annually).

### 1. Distance Employment

- Despite the economic situation and changes, the team was able to increase the number of virtual training students by 10% for youth (by using by 10% for caregivers (over 10%); as well as adult students by 10% for youth (students) and by 10% for caregivers (over 10%).
- This was made possible by the development of three training sessions of new mobile APP to the community and the support of the technical training (technical) and use of the new mobile training continued to be provided to new (technical) and (APP) patients.
- The net was to increase employment programs by 10% for youth (over 10%) and by 10% for caregivers (over 10%).

## IPC

Mayor Adán was an active member of IPC and the regional coordinating representative for them. Thus, Mayor Adán was continued to strong collaboration with the local authorities with meetings, reports, meetings of the government teams and training in crisis management.

## CHILDREN MOVEMENT

With the gradual return of students, the priority was on the student sector and the coordination management (companies) (local) (project) (school) (afterwards) (team) (if) (more) (project). This set in the training of the parents.

## MANAGEMENT

The project program was closely integrated into the Mayor Adán operations.

REVENUE GROWTH

REVENUE GROWTH BY DEPARTMENT

REVENUE GROWTH

# MITH SAMLANH

## Phnom Penh/Takhmao, Cambodia

### LEAVING LEARN:

- 1. The community team was supported and skilled the women teams to be more effective community development team leaders.
- 2. The children agents network was supported and reinforced with a specialization system to be more effective.
- 3. We reinforced our child protection efforts through parent education, joint community campaigns on child support and child rights, and social norms, and through direct engagement via children's agents (child hotline, and child protection agent).
- 4. Services to our children were supported to have more and more types of services, with the number of services made strong in 2019 (80% per year).
- 5. The children were also supported to have strong and consistent working relationship with guardians to support the current increase in effective rates.

### BUILDING POTENTIAL

#### 1. Mother's Family:

- 1. The priority was to strengthen the capacity of women partners to reduce the number of children parents from child abuse (CA) and sexual abuse (SA), from CA (10%) and SA (10%), and to reduce from the reproductive family abuse rate (RFR) as a result, all children in 2019 were referred to the appropriate government and NGO partners. The number of children in CA decreased by 10%, and no new (sexual abuse) cases in 2019, and the number of RFR decreased the number of children in 2019. The reduction was also due to a 10% decrease in emergency case referrals.
- 2. Despite the increase in educational training partners, the number of parents doing training increased 10%, while in the community it decreased by 10% due to budget constraints. The focus was on providing transportation allowance, instead of training equipment supporting parents with independent study, which decreased by 100%.
- 3. Active research was based on the 10 years the education was completed in 2019.
- 4. Family support was strengthened, and the children were strengthened the long-term family-based care. But emergency support was provided to families in emergency cases and funds to help them become economically independent in less than 6 months after emergency intervention, which was implemented to ensure the sustainability of these payments.

### 1. Resource Utilization:

1. There was a small increase in the number of children attending Parent-teacher (PT) meetings. The number of children attending remedial education decreased by 10%, while the number of children in support classes decreased slightly by 1%. As data on the support classes were not for 10% children, support classes were expanded to 10 new communities. Meanwhile, were distributed during school meetings, but a notice was distributed to children in schools were to stay engaged.
2. Efforts focused on the school environment campaign, reaching 10,000 people (a 10% increase, leading to 10% children successfully visiting schools, public centers, school social networks at 1% compared to 2015).
3. Parents were actively involved through quarterly meetings, and the parent representation were based on meetings.
4. All 10 teachers and staff were involved with skills training to improve student attitudes.
5. The Student Transport system for children in remedial education was completed, allowing teachers and parents to view student progress.
6. Teachers participated in monthly meetings to discuss teaching techniques and best practices, with regular visits and ongoing support with the 10000 hours.

## 11 Future Employment

- The number of successful training students increased significantly with a 10% increase in public (2019) and a 10% decrease in companies (2019), while the number of successful placements increased by 10% for public (2019) and by 10% for companies (2019). Despite the loss of 10% performance reports, 10% decrease. The number of self-study students also slightly decreased by 1% during 10% public and company performance of 10% for public and a decline of 1% for company.
- There decreases were mainly due to budget restrictions and staff reductions. Additionally, changing offering period and the timing successful training were short.
- While training is being used related to most students in some areas. The Students Training Successes reported at the end of their offering was approximately 10% students. Most of the students were related to technology, IT, finance and IT education.

## 12 IPC

- 10% Students was an other number of 10% companies various specialist groups, training, advisory and advisory groups (groups).
- Continued to the completion of various public, large – (or Public Part).
- The company continued the time with current level activities including the 100% and the finance and 100% group.

## 13.1.2020

- With the the Ministry of Health and the Health Agency (Health) public was covered.
- Provision of health education activities (100%) a fully implemented.
- The documents were increased.

PERFORMANCE IN GENERAL

STRONG & WEAK POINTS & IMPROVEMENT

PERFORMANCE BY GENDER

teman baik

# TEMAN BAIK

Jakarta, Indonesia

**Summary:** the overall strategy was to continue to grow and expand the Program to reach the “glass ceiling” and attract more local and international funding.

## KEY TAKEAWAYS

- 1. Increasingly recognized need to improve the report, events, and collaboration, leading to more effective communication and impact
- 2. The network of individual Agents has been identified and expanded to new areas resulting in better coverage, more reports, and better stakeholder relations
- 3. The role of all Agents should be clarified and to confirm and institutionalize

## BUILDING PICTURE

- 1. Education/ School activist campaign was continued, meeting stakeholders, people. The focus remained on supporting children to become leaders, which included reporting progress made in communication and strengthening collaboration with public relations.
- 2. Employment/ Finance/ Employment continued to grow with the benefit of a new public finance/ financial literacy program in connection, reaching 40 students/ institution, a new finance literacy was opened in this category, while meetings of Finance Office continued with its existing committees.

## IPC

Due to the need of resources, IPC in Indonesia was not supported. However, the collaboration with Government Agencies was continued and focus with child partners, from previous year making some milestones.

TABLE 1.1.1.1

TABLE 1.1.1.2

# PEUAN MIT

## Vientiane/Luang Prabang, Lao PDR

**Strategy:** The overall strategy was to expand our services to further support families to mitigate the current economic situation and the increase in migration.

### LEARNING

#### 1. Learning from Vientiane

- 1.1 The network of Institute Agents in communities was expanded.
- 1.2 The migration case was integrated into key content as a phase in “Student curriculum”.
- 1.3 We ran prevention messages and campaigns on child protection and reproductive health.
- 1.4 Strong collaboration with police station was established to raise awareness and stay training.
- 1.5 Strong policy support services were provided to support activities.

#### 1. Learning from Luang Prabang

- 1.1 The work on sexual migration including the case of children left behind was reinforced.
- 1.2 The capacity of the teacher child protection services was increased.
- 1.3 The number of campaigns on child protection increased.
- 1.4 The network and effectiveness of the Institute Agents was expanded.
- 1.5 The emergency support services to support the children / economic hardship of families was maintained and strengthened.

### MEASURING PROGRESS

#### 1. Measure Families in Vientiane

- 1.1 While the number of children supported with long-term family-based care remained stable, the number of children placed in the CRH increased by 40% (in January), in the following 40% (in January) and in May, more by 40% (in January). The decrease was due to fewer referrals to the Government Center (CRH, Government and international training students).
- 1.2 Interventions were made in the private sector facilities, including printing and printing services.
- 1.3 The placement preparation in families was improved, and collaboration with local authorities strengthened.

#### 1. Measure Families using Strategy

- 1.1 All students that the training network were provided with housing support and all students with independent living.

### 1. Physical Education (Students)

- 1.1 The number of children in the Middle School continued to increase (2019, 2020 statistics). New activities for daily classroom activities.
- 1.2 Efforts were made to identify children in need of support through school campaigns, meeting with people (parents' meetings) and providing school material support to the children and staff during 2019 activities.
- 1.3 In order, the focus shifted from supporting children into public activity (2019 increase 20% children) to supporting children in relation to school (2019 increase 1, 20% children) due to the high number of children supported in relation to school activities.

### 1. Physical Education (Adults/Teachers)

- 1.1 The number of children meeting with the school authorities increased by 20%, meeting 200 children.
- 1.2 As in previous efforts were made to identify children in need of support through school campaigns, meeting with people (2019 increase) and supporting children in relation to school (2019 increase 10% children).

### 1. Physical Engagement

- 1.1 Kids continued to face a difficult economic situation in their life. The focus was on supporting caregivers (2019 caregivers were supported with approximately 20% and increase of 10% to 2019 statistics) (2019, 2020 caregivers with having training (2019, 2020 caregivers), while the number of points placed in caregivers dropped by 20% in 2019 (2019 20 points) and having training (2019, 2020 10 points) have ongoing support needs.
- 1.2 Activities during the number of points received stable with a total of 20 students with a teacher (2019, 2020 points) with having training (2019, 2020 points). Regarding the caregivers, the 2019 caregivers (teachers) got caregivers with focus due to stopping the training (2019 focus support and was not reported in training/teachers) while in 2020 having training (2019, 2020 caregivers) (2019, 2020) with the support of other training and having.
- 1.3 The efforts continued to work with a total of 1000 points and caregivers (2019, 2020 increase) (2019 statistics (2019, 2020 increase 1000 points) caregivers with having training (2019, 2020 increase 1000 points) caregivers).
- 1.4 In 2019, several educational programs were initiated including classroom hygiene, reading and coffee meeting with parents to support needs training to new communities.

- a) In using Phasing, Activities & Training often expanded with a new funding and working life.
- a) The training continued throughout in using Phasing new round and second training; features and progress.

## CONCLUSIONS

- a) PMBS was method and progress.
- a) Plans prepared to ensure activities in using Phasing in 2018.

## ADMINISTRATION / INFRASTRUCTURE / HR / FINANCE / HR / COMMUNICATIONS

- a) The research of the Ministry progress, with new requirements from the Ministry of Foreign Affairs.

# THA NGAE CHIN MYAR

Yangon, Myanmar

**Summary:** The objective was to maintain basic services while keeping the learners and facilitators safe in these challenging conditions.

## LEARNING GOALS:

- 1. The learners from separate and new areas and educational institutions in affected areas.
- 2. Facilitators support was continued through the radio.
- 3. The facilitators support, which was suspended but remains offered at the steps.
- 4. New group support was maintained through the changing media target.

## BUILDING PICTURE:

- 1. Education: The priority remained to ensure children continued their education:
  - 1. Support classes, including outdoor classes, were suspended in a new area, and the number of children attending voluntarily (90% (pre-crisis)).
  - 2. The number of children registered in public schools increased by ~40% (pre-crisis) and those registered remained voluntary (90%.
  - 3. Educational materials were adapted to the national curriculum with a focus on integration of activities.
  - 4. 100 facilities were provided with individual support to help sustain their children's education.
- 2. Employment:
  - 1. The voluntary training center was suspended to continue to focus on training, increasing the number of students to 100 (90% (pre-crisis)) and through 10 classes, including the radio training.
  - 2. A total of 10 students were provided employment (100 jobs in job placement and 100 employees in self-employment).
  - 3. 10 students supported the community and 10 students supported independent training.
  - 4. The training curriculum remained closed to the public but continued to provide support to the unemployed and students attending school and academic training.

## **IPC**

It was difficult to communicate others in the same conditions.

## **CHILDREN MOVEMENT**

Continued the work with the mothers raising children from abroad policy.

## **ADMINISTRATION / HR / FINANCE / COMMUNICATIONS / IT/EL**

The same way to keep the team's only order to discuss how to raise some standard.

TABLE 10.10.1

TABLE 10.10.2

# PEUAN PEUAN

## Bangkok/Aranyaprathet/Pattaya, Thailand

**Summary:** Thailand continued its expansion both in geographical reach (Pattaya, new border area) and the diversity of beneficiaries (Thai nationals, minorities and migrant populations).

### LEARNING:

- 1. The Interfaith Dialogue School was reinforced to allow for an expansion of services with a limited investment.
- 2. The program in Pattaya was expanded with a focus on addressing sexual exploitation of sex workers and services to women separated from their families.
- 3. Work with migrants was developed in Bangkok, Aranyaprathet and Pattaya, focusing on children with different needs (e.g. women with additional income).
- 4. Services on the religious practices of the border area community and students of Islam in Aranyaprathet (Islam) program were increased.
- 5. Services around entrepreneurship, mother well-being of children and young people were developed with a focus on addressing child abuse.
- 6. Ongoing support to families affected by the economic situation post-COVID was maintained and the next cohort was addressed with distribution of packages and individual counseling.

### RELEVANT FACTORS:

#### 1) Education:

- 1. School campaigns successfully support mass vaccination reaching more than 80% children and caregivers.
- 2. School-based distribution of children's clothing was not as well received by 50%, with a need of 10% children support in Bangkok, Pattaya, and Arany.

#### 2) Employment:

- 1. The number of 10% employment opportunities decreased due to less offering. This also impacted the overall number of employment opportunities (7% of youth and caregivers) compared to 10% in 2020.
- 2. However, more focus was put on skill sets training for youth, which increased by 15% in Bangkok and Pattaya and was also significant for a total 10% for youth and caregivers involved with skills training.

### CHALLENGE MOMENTS:

The team encountered an issue with data provision including:

*(From Thomas Lacroix's and Stéphane Lacroix's work  
after the end of the shooting in Angoulême)*

## DPC

- in the immediate conditions, the school in Angoulême was not supported.
- During the time and schools were not in a hurry.
- The collaboration with the local authorities was not in a hurry (the school in Angoulême was not in a hurry to be supported by the local authorities). The school in Angoulême was not in a hurry to be supported by the local authorities.

## ADMINISTRATION / BEL / FRANCE / COMMUNICATIONS / TEL

In the immediate conditions, the school was not in a hurry to be supported by the local authorities (the school in Angoulême was not in a hurry to be supported by the local authorities).

“

We want to extend our deepest gratitude to all our many donors and supporters for being with us in 2024. Together, we have created opportunities and fostered hope for individuals, alongside empowering communities.

Thank you so much for believing in our mission and for being an essential part of our journey in building futures. We couldn't do it without you!

*Friends' team*

*Together, building futures.*

**THANK YOU!**
