1. **Shave your head**
Set a target and tell your friends you will shave your head live if the target is reached! You can also grow a mustache or stop shaving. For every $X donated, it's one more day without shaving...

2. **Run your own online masterclass**
Do you have a skill that you are particularly good at? Host a masterclass on social media and share your knowledge with your friends! Great way to get everyone occupied!

3. **The Everest challenge**
Being stuck indoors doesn't mean you can't challenge yourself! Scale the Everest via your staircase! We've done the math for you: that will be 46,568 steps! GO!

4. **Donate your birthday**
Not everyone can afford to stock up on essentials at this time. Make your special day count: ask for donations rather than presents on your birthday to help those who really need it.

5. **Upcycle!**
Being home gives you plenty of time to get creative! Collect old objects or materials around your house and sell your inventive creations online!

**Fundraising Ideas When You're Stuck at Home**

If you're home, the easiest way for you to raise money might be online. You can easily do so by fundraising for us on https://www.simplygiving.com/nonprofit/friends-international.
